

the shot-gun of the future

BREDA Superlightweight

12-bore
under 6½ lbs. weight

**The new SUPERLIGHTWEIGHT BREDA
AUTOMATIC SHOTGUN combines
lightness, supreme accuracy and
precision.**

TRY IT AND YOU WILL UNDERSTAND WHY
BREDA SHOTGUNS HAVE BECOME WORLD
FAMOUS.

This automatic shot-gun, with its magazine capacity of four $2\frac{1}{2}$ inch or three $2\frac{3}{4}$ inch cartridges, plus one in the chamber, with its classically elegant lines and its perfect construction, is the most attractive shot-gun on the market to day. Its simple but strong action guarantees efficient and trouble free performance.

The BREDA action, including the bolt, can be completely dismantled by hand without tools.

The BREDA barrel is manufactured in a special alloy steel and has a chromed bore carried out by a special patented process.

**The sign of successful
shooting**

**THE SUPERLIGHTWEIGHT BREDA
SHOTGUN IS SUPPLIED WITH a 26"
BARREL WITH MODIFIED CHOKE;
STOCK WITH STRAIGHT HAND OR
PISTOL GRIP AS REQUIRED.**

THE ONLY SUPERLIGHT AUTOMATIC SHOT-
GUN WITH A STEEL RECEIVER, A GUA-
RANTEE OF RELIABILITY AND PERFECT
PERFORMANCE.

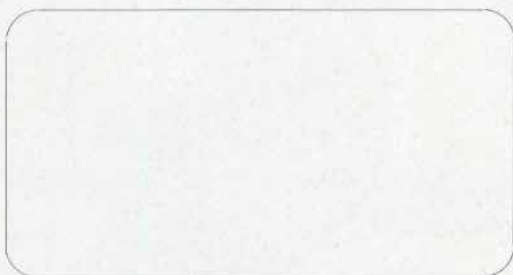

weighing less than $6\frac{1}{2}$ lbs.
